Marquet Reid

Full Stack Web Developer

240-459-5255 ✉ marquet@marquetreid.com 🔗 http://marquetreid.com ⌨ http://github.com/codenamequet 📍 Laurel, MD

I am a self-motivated web developer with a drive for solving problems. When working on a project, I am always optimistic about the outcome due to my natural intuition. The combination of my focus, attention to detail, and critical thinking makes me an asset to any team or environment.

Experience

Web Development Teacher's Assistant

George Washington University Washington, DC 07/2018 - Present

- Assist in teaching and supporting students in learning full-stack web development using the MERN stack in an online enviroment.
- Maintain the class gitlab repository containing class activities, homework, and supplimental resources.
- Provide office hours in which to give one-on-one attention as well as further teaching and support of concepts, class activities, homework, and projects.
